**Responses Designated as "Confidential" by Frontier Telephone of Rochester, Inc.**

**Question 1. Voice Equivalent Line Counts for:**

- a) business lines (column b)
- b) residential lines (column c)
- c) special lines (column d)
- d) payphone (column e)
- e) single line business (column f)

Reason: The disaggregation of access line data by type at the wire center level is not made available to any party outside the company as such confidential information could cause significant competitive harm and could potentially represent a network security issue.

**Question 2. Facility Line Counts for:**

- a) business lines (column b)
- b) special lines (column c)

Reason: The disaggregation of access line data by type at the wire center level is not made available to any party outside the company as such confidential information could cause significant competitive harm and could potentially represent a network security issue.
